ABOUT US

RSG is a multidisciplinary company with vast expertise and industry knowledge, offering a wide range of tailored services to meet the diverse needs of our clients. Our portfolio encompasses Business Intelligence (BI), Enterprise Resource Planning (ERP), Cybersecurity, IT Services, Gaming Solutions, Marketing, Operations and Maintenance.

By leveraging our extensive capabilities, we provide organizations with a holistic package that addresses their specific requirements. Headquartered in Riyadh, Saudi Arabia, with an additional branch office in Jeddah, we are committed to delivering cutting-edge services to organizations across various industries.

Sustainability is at the core of everything we do. Our pledge is to operate ethically and responsibly by reducing our carbon footprint and minimizing the environmental impact of our operations.

OUR MISSION

At RSG, we are driven by a profound commitment to empower our customers by delivering innovative solutions using AI, Advanced Machine Learning and Big Data Analytics! We strive to support our clients efficiently, enabling them to achieve their business goals with confidence. Our commitment to sustainability goes beyond mere compliance; it is a relentless pursuit of excellence in environment protection.

OUR VISION

As a forward-thinking multidisciplinary company, RSG aspires to be a leader in innovation committed to shaping a brighter future. Since our establishment, we have consistently demonstrated excellence in our services and we aim to continue leading the industry by delivering technology solutions that drive growth and success for our clients. We aspire to contribute to the realization of Saudi Vision, aligning our efforts with the Kingdom's strategic goals for economic diversification, digital transformation and technological advancement.

OUR CORE VALUES

Enterprise Resource Planning (ERP) System

Daleel, the ERP Solution Tailored for your Enterprise.

It is designed to help organizations manage and integrate their core business processes, such as accounting, human resources, inventory management, procurement, customer relationship management, and supply chain management.

The goal of Daleel ERP system is to provide a centralized and unified view of an organization's data and processes, which can help to improve efficiency, reduce costs, and increase visibility into operations.

Daleel ERP system can be customized to meet the specific needs of an organization and may include features such as workflow automation, reporting and analytics, and collaboration tools.

HUMAN RESOURCES INFORMATION SYSTEM

(HRIS)

HRIS refers to a software system that is used to manage and organize employee data, such as personal information, employment history, job titles, and performance evaluations.

An HRIS system may also include tools for managing payroll, benefits, and other HR-related processes.

These systems are designed to streamline HR operations, reduce paperwork, and provide greater visibility into employee data for better decision-making. HRIS systems are used by organizations of all sizes and are becoming increasingly important as companies rely more heavily on data-driven decision-making.

- A tool to manage and organize the organization facilities with many banks: Balances, Limits & Margins.

- ▶ With the dominance of mobile usage nowadays, Daleel is also available as a mobile App showcasing several features with focus on the end user – the employee.

SUPPORT SERVICES

▶▶▶ SUPPORT & MAINTENANCE SERVICES

The technical support at RSG is an essential part of our services, in order to better serve our clients. We provide our assistance through different channels of communication ranging from phone to email, remote and on-site support. We cover up to four levels of supports:

Level 1: Initial support level responsible for basic customer issues.

Level 2: A more in-depth technical support level where our technical experienced engineers offer their expertise on a particular product or service.

Level 3: Highest level of internal support for handling the most difficult or advanced problems. Our highly skilled product specialists will assist in problem resolution.

Level 4: Outside support for problems not supported by our company. With our contractual support for some products offered by RSG, we forward the requests to concerned companies and monitor solution implementation.

In addition to our support services, we provide adequate training to our clients' staff on operating Daleel.
